This sample shows one job's quote and estimate files renamed, grouped, and listed. It is a fictional packet for review. It is not a client file.

Inside this sample

1. This cover and a short contents note.
2. A file index: the messy name beside the packet name.
3. Figures that were actually written in the source files, plus a follow-up list.

> Missing amounts stay blank. This sample does not fill in a price, a measurement, or a promise. Follow-up lines are drafts for the contractor to review. Nothing in this file was sent onward.
